Career Summary

Web Developer with 1+ year of experience in building responsive and user-friendly websites using HTML, CSS, JavaScript, PHP, MySQL, React, Bootstrap, and Tailwind CSS. Skilled in both frontend and backend development with a focus on clean code and performance.

Technical Skills

Frontend: HTML5, CSS3, Bootstrap, JavaScript, React.js, Vite.js, Tailwind CSS
Backend: Php, MySQL
Tools & Platforms: Git, GitHub, VS Code
Other: UI/UX Design Principles, Responsive Design

Professional Experience

Web Developer
Wolfox Services Pvt. Ltd., Kolhapur
2 oct 2023 - present
After completing my maternity leave in December 2024, I resumed my professional journey as a Web Developer. Currently, I am actively working on web development projects, focusing on PHP and Bootstrap to create responsive and user-friendly websites. I am responsible for both frontend and backend tasks, using modern HTML, CSS, and JavaScript.

Maternity Leaves
19 May 2024 - December 2024
Took a planned maternity break from May 2024 to December 2024 to focus on health and family responsibilities.

Full Stack Web Development Intern
Wolfox Services Pvt. Ltd., Kolhapur
3 july 2023 - 2 oct 2023
Worked on front-end and back-end development using HTML, CSS, JavaScript, Bootstrap, and PHP. Assisted in building end-to-end web solutions and collaborated with senior developers on various client and internal projects. Contributed to debugging tasks, optimized code for better performance, and enhanced overall website speed and responsiveness.

Education

Bachelor of Engineering (Electronics)
Shivaji University, Kolhapur | 2016 – 2019 | 64%
Diploma in Electronics & Telecommunication
MSBTE | 2014 – 2016 | 78%

Projects

Personal Portfolio Website
- Showcases personal and professional projects with animations and responsiveness.
- Built using Bootstrap 5.
